Hi Buddy -

Was rather surprised but really
pleased to find a letter from you
in the mail this morning. Keep on
coming, buddy, as I'm always more
than glad to hear from you!

I have just finished writing a letter
to you & the folks but that I wrote
you one to answer your question.

As to the old study hall - 209 - is
still dead, eh? It always was that
way till the end of school & then there
was plenty of Hall work.

As I said in the other letter, follow
the fellows in the salt lake city papers &
some would like to see you play. If you
see Otten, Slipfutz, or Whough, tell
em I say "He's a keep 'em in the hoop!"

Yes, the women are nice but here
but "Cindy" is much nicer!! Don't ever
get any idea about getting girls away
from home being fun 'cause it's not!
Have you been down to Westfarms?
yet? They'll be glad to meet you &
Suzzy is here. Tell 'em my hello.

As the Hi School boys are quitting
the team, etc? Funny thing & is in spite
of anything. I don't - & a few million
others - like the damned army either
but what would happen if we quit? I
know. The "game" will go on a much
larger scale but if they quit in Hi School
quit the team - they'll make damn good
soldiers & men would make officers!
Never quit anything worth while that
you stand!! Enough preaching but
think it over!!

Remember, Dale, to keep up the old
B.H.S. International "tradition" up by
keeping the game rough. It's always
more fun that way & the only way
we were played. Not dirty but plenty
rough!

Yes, Dale. I know how it makes
you feel & see a show like Canada-
land Ring & not be "in anything" &
doing your part. Listen, kid - I'm
not gonna preach, just give you
the facts - stay out as long as
possible! There's plenty of us here
who can do the job. I feel the same
way you do cause I'm not actually
"in the fight" - yet - & we are anxious
to get there. But it's not what it's come
up to be so stay out!!!

Well, Dale, Mom can read you
this & about how I want A.W.O.C.

& as there's no more to write so long
 till next time: Write again soon,
 take care of yourself, & like I told
 you when I left, - take care of our
Mom & Dad 'cause they're the best
 there is!!! Don't forget Dad!

Love brother
