Dear Family!

this will have to be short as
his going. A "party" at the Spts.
Club in 15 minutes. One of the
guys in crew 3119 is getting mar-
ried tomorrow so were throwing a
party for him. His on the wagon!

Met the jack pot today: Litter
from year (2), Bob, Slater (who
has his commission now) + Lois
Sands. Not bad at all. eh?

Forgot to tell you yesterday
that Tee Fisher washed out of Calix.
He was to get his commission the
23rd of May! I really feel for that
guy! To get that close, & then be
let down like that! They have no
consideration whatever for a guy's
pride + feelings. They could at least

2-

give him his comm. & let him
be a ground officer. I don't care too
much for Tee but his work
like Hull & get this far & have
taken lots of — & get a
new deal!!

We are all finished flying now.
were the 2nd ones in our flight
(16 crews) & finish & damn few
others in any of the other flights are
there. We may have to fly this
& test hop some of the ships
right after they are overhauled. Let's
o' fare! Had a field day with
the ole Radio today & was well
on the ball! Sep. dragging again!

Let's go so till tomorrow

I Love You

all Steve..
