U. S. AIR FORCES

Dear Snell Family!

Yep, it's me, in my tent spending
a nice quiet Sunday evening in my very
comfortable arm chair! Ha ha. I can dream
can't I?

No missions today so I went to
church this morning, got a shave &
then ate chow - Spam, which isn't
too bad, if we don't have it too often.
We have salt pork quite often for break-
fast. You'd soon learn to eat fat over
here, Dad. There's no going out to a
restaurant & getting what you please -
altho' a hamburger would go good right
now. Then, after dinner, Kellogg & I

U. S. AIR FORCES

— This is Tues. I said a good deal more in Sun. letter than I should have so it was returned & now I'll fill it in here.

Nothing much happening. We moved to a different tent but site & it's a lot better. The road half-way built in it. Something special in these parts. Haha.

Make stops but it's late & gotta hit the old sack until next time

— Love You All
Steve

U. S. AIR FORCES

Had a small letter from you today! written the 2nd of this month & forwarded from ~~someplace~~ my temporary APO Number. You should have this address by now & mail will soon be coming in steadily.

Glad to know you received those other two letters that I wrote en-route. - Before I forget it, tell Gloria Andrew, my old high school teacher, that I'll drop her a line some ^{time} ~~when~~. Also send Ray Rubinski's address to me.

The most shocking news seems to be Wally's becoming a Daddy! He's not a year older than myself &

U.S. AIR FORCES

I surely can't picture myself as a
proud father!! Gosh, I want clear
them school with both of em & there's
no more than kids, like myself.

Give Margie my congrats &
best wishes. And to Frank Wally.
Sears, & I all solemnly promised
to be confessional bachelors way back
in the eighth grade. Haha. Whata laugh!

Am enclosing a couple pictures
I managed to buy in Africa. Will tell
you more about em someday. Also
am putting in some foreign money
which may be interesting to you & you
can stick em in my scrapbook.

U. S. AIR FORCES

Yes, it was a wonderful trip & one which I will never forget but that is all I can tell you about it until I see you again.

Gu, I'd liked to have seen you in my pin striped blue suit. Dale. I'd bet you were really sharp. What I wouldn't give to be sitting out for Centennial in it! Wear it all you like but have it so I can wear it a few times when I get home. I know you'll be careful of it & have a good time.

Write soon & bid the whole pack so till next time —

I Love You All

Gene
