U. S. AIR FORCES

Dear Snell Family!

Hit the old jackpot again today: Five
from you (4 Forwarded from old A.P.O.), One from
Jimmy Pennington, & one from Bob (mailed
18th & 19th). Your letter which
was written the 13th & the one I had
today was written the 14th. Got mixed up some.

Yes, Dad we have electric lights in our
cave & you are a good guesser. No, I haven't
been swimming lately but am planning on it
again soon. It's really salty! Tell Adrian
but he'd really like it.

I don't blame you, Dad, I wouldn't work
things under these conditions either. Even when
you do. They work the hell out of you. I personally
believe it's very demeratic for them to get away
with it! You won't make too much dough, at least
& you'll get a lot of good experience & it's a nice chance

Sound like you're really growing up fast, boy!
Keep in good condition & remain your

"big" brother. HaHa. How's the love life, Knud? I hope. Be sure & have a good time as it'll be a lot & you when you have home. More advice. I spend a good deal of time at home, too, & you'll miss that more than any thing else. I hope.

I now have completed 13 commissions. Not bad, eh? Can't tell you any more or how many more I have to go. I know all about it someday.

Went to Church this morning & had a wonderful sermon by Chaplain Flynn. I had a lot & really enjoy hearing him. Had a good shower, showered, cleaned house, aired & folded my blankets, & slept a little. How's that for a day?

So Rudy is planning to put 50 trucks on the road soon. Not bad at all. That boy has a lot on the ball for an Englishman.

Want to write a couple more & then let the sack go till next time.

I Love You All

Shane
