

Tues. Eve.

7:30

7-4-40

Dear Small Family!

4th: ~~Subj~~ they won't let me
shoot my fireworks: I guess there's a
lot of picnics, etc. at home today. Wouldn't
mind being on one today. It's just an
extra day to us. We see fireworks - with
a lotta bang ~~time~~ - quite a lot.

Rec'd 3 letters from you in today.
One thru my old A.P.O., & 2 recent
ones - June 22 & 23. Also glad I have
this stationery. That's a good idea for send-
ing it. Why couldn't I think of that?
~~Glad to know I have a box~~

on the way & that you found some candy.
How did you ever manage to get 2 to
Dale? I guess you'll get along all
in the Army! Have a million kids!

Yeah. I guess those V-12's & V-5's
have it pretty tough, don't they. Fourlonghts.

I had a fling on it! It'd be nice
 & living in a dorm on a campus, having
 coffee, ice cream, dances, etc. & be safe but
 I'd rather be over here taking a chance on
 getting "injured" here & then have to
 show & have it on my conscience. My parents
 couldn't stand it. I may get scared here
 but nobody can say I'm yellow!!
 Well if it is, those are the guys who "won
 the war" - after it's over.

I should be planning to go back
 to school this fall as a senior. A
 year & a half. I've lost so far. Those
 monkeys will get credit for them. Dance
 mania will get him a degree. He out
 here, & making some dough when
 now. Dad & I are hardly spectators.
 I think I'll personally push that
 face in when I get back!!

Tell Eugene, Mauck, Allum, Brooks,
Muir, Beathie, Wallendick, Ole Lady,
Mayer (Ma), Tom H., Myer, Smith,
Bob Reid, Vasey, & all the rest that
I say hello & approximate their heights.
Don't you, & don't forget to tell Irving that
that his still was ahead of him! Haha!

Tell Betty Mook my address & that I'd
like to hear from her & would be glad to
answer. Tell her I send a Big B. too!

Dad if you think those 29's are
big, in the air, you should see 'em on
the ground. Of course. No one knows
who can get very close are special in
civilians, so:

People can say what they want
about the Flying Fortress being the best
fighter ever built, well it's about more
versatile, & all that but I'll take

Take a good ole [redacted] - I should be for
my dough! I can tell you more when
I see you but take it from one who
knows, a 24 is a damned good ship!

He was going hot on all fronts.
Once they get in further from the coast
in Normandy they should really go

I suppose meet the Russians in Paris.
Those guys just don't let up. They must
be a perfectly co-ordinated means of
transportation of materials. They did one
at the Germans by running low on oil
& gasoline too. What have you? I see
you Walter OK in the invasion - as well
as all the others.

Well, well as it must seem to
you guys - especially you Dale! - I got the
sack go till next time -

Love
from all
Glen.

P.S. Hunt 22
missions in
now!
