

Thurs. Eve.

8:00

7-844

Dear Small Family!

I think from now on that I will write in pencil because I got another letter back from the canoness & it's a lot easier & easier than to re-write or shut out.

Rec'd 3 letters from you today. They were written the 26, 27, & 28. That is really good time! That's really a good idea & send you stationary with your letters. Thank a million.

Am writing a little like I write 'cause we're like "chewing house". Not as thoroughly as you do, I'm sure, but it looks a little better than it did.

Glad you finally said the picture of the crew & that you like it. We're still going strong - 24 missions in now - & taking good care of each other! We do have a new

that someone saw by the name of Ted
Kedzinski (or something like that!).
This really a criminal guy & a damned
good guy. Like him a lot. Saw do
with Possum, tho.

I listen to the news every day &
we get news flashes which are printed
on the bulletin board daily but as far
as newspapers go, they are of no value,
other than the fact that we get some
details, faster than, because they are
published in getting here. It seems sounds
good, too. I wish I had my copies
with me so I could follow it up.
There are maps available but not the ones.

I'm not as scared as I used
to be - don't get me wrong I'm
still scared - but it has turned into
a sort of tension. Especially over the
target. It doesn't bother me nearly as
much as it used to, tho.

Glad you're sending the Sentinel. The
war news will be what but the personal

those are always interesting - see who's
still dodging. The drift, who's off-
fence, who's grin - means, etc. They
also post the full news here, too.

The photograph sent you
were from "aphie" in Africa. The
building was really beautiful. I wish
you could see it. We went all
thru it. It is unimproved but the
walls, doors, & ceilings were really
something. I'll send you how
old it is. The picture of the women
was to give you a vague idea of
how the women around here dress.
Those women were really clean looking
in comparison to any I've seen!

It's time I was getting
my weekly cake & hitting the
road. We also just eaten 4 cans
on a large batch of beer & milk. I
always give some to the gavs.
Love you all
Frieda
