Dear Pals:

Well I told you I was going to write early from now on & here I am. Since there was no mail call yesterday. I didn't get any mail but I did get some today.

Bag. is it over hot here. It has been for some time & I guess will be for some time to come. Thank God I don't have to sleep in it any more.

Alvin Miller is coming out over the radio & another "guy" & I were dancing — what a long & good time.

We start studying maps in
Navigation tonight. We have
already covered the British
+ Amer. types of Beam Approach
Blink Landing + Range Station.
In Coll we are still + will
be for the next 5 wks. - working
on tactical procedures. We set
up a "net" of 5 gages + send some
sage with 2" signals back
+ forth. This is somewhat a
simplified affair. When we
are out of here + start flying
we won't ^{formally} ^{minimize} flights.
phones + don't take 'em off till
we meet fighters + then take over
our battle position + then put
'em back on till we get back.
We have 8 take down - is a new
act measure everything that was

over the earphones. It's not
going to be a soft job. It sure
is interesting tho. I like it.

Well, I guess the "wonder"
finally got wise, eh? This
looks like the end of Italy.
It's time to a lot of iron
'got wise.' The wonder they do,
the wonder will all be home
again.

I guess that's all for today
— Since I have to shut up
till tomorrow —

So I have —
