

Mrs. Mite -

9:40

11-1-43

Dear folks:-

Just a short letter tonight because I have just a few minutes. We took a big exam & mile & just got out. It was really tough but I think I made it look.

Received letter & \$2 from you today but didn't get the box yet. Tomorrow I hope.

Had a lot of fun on the range this morning & afternoon. First we went to the range estimation & the had snuck up machine guns with sights & an AT-6 flew over & we had to estimate its distance - range. Then we went to the shot gun range. They

-4-

had 2 ~~shrapnel~~ mounted on
the cocker-wheel Turrets which
were mounted on trucks. It
was a lot of fun but difficult.
Only hit 20 out of 50.

Then I chew.

After chew we fired 200
rounds on the 500 yd. range
with caliber .30's. I got a

score of 37 + 60 is excellent.

Then we went to the 200 yard
range & had 200 more
rounds on caliber .30's. I made
142, here & 160 is excellent.

Then back to the barracks.

Tomorrow ~~night~~ we go
out again & then tomorrow
night we go out to the range

-3-

for night firing with
two shells. That should
be quite a night.

If some was well &
talk to you last night. I had
it was 8 hours & talk only
5 minutes but it was worth
it! Glad I got to talk to
Grandma & wish "Ingy" had
been there too.

I'm sorry I won't be able
to phone this Sunday but we
go to Eagle pass Sunday morning.
You see they are planning to
get B-24's in here for
training & have to enlarge all
the runways & in order to do
so they have to fly the B-7-6's

about them. It is a migration
school & I hear pretty well.
I'll call you the 14th I think
that's the date - 2 weeks from
yesterday.

Fights out so till next
time -

Love
Glad.
