Dear Lovell Folks: 11-19-43

Hey, am I happy tonite! You know how worried I was about not graduating — well, here is the reason why: I didn't do so well at Eagle Pass out the first 200 rounds that I fired I only got 12 hits! But I went over today & found out that I had hit 101 out of 200 the second run, & 88 out of 200 on the 3rd run. Totaling — including Eagle pass (20 out of 60)

219 lines out of 1200 words.
This is a little better than
15% + 15% give you a
chuyschotte rebel so I
guess I don't have it very
now.

Tomorrow is the last
day of school. I have to
take a camera missing.
This is quite interesting +
is not supposed to be
counted in scores - I hope.
We drew 50 ft of moving
picture film + the camera
is mounted on the gun
cradle so that whenever we

pull the trigger, the camera runs + takes pictures. We fire at — or the pictures of an AT-6 which dives on the AT-11 which we fly in. We have to allow for proper lead, drop, expected motion of the ship's course, etc. + then long after words we see the pictures. I don't think they will but I hope - + I'm going to try - I do ok!

I was over + talked to Ward Ridgeway tonite + he went home by way of

St. Louis, Chicago + Toledo + it only took him 34 hrs & get home. See, if I get 20 days - traveling + all - I'll have about 15 days at home! See, I can hardly wait!!

I hate to quit so soon but I've got to write Ruth, Polly - maybe - & Ruth. She don't make it more than 2 weeks ends but. That's something + maybe I can go down there a couple days.

Put the three stamps, 3 dollars, 14, + well for

today. Thanks a million
& more for every thing!
Till next time —

Love Glen!

P.S. Thanks for the check!
